

22 Years!

HIGH *Electrorally* 2020 **PLAINS**

Fort Hays State University's Department of Applied Technology, Sunflower Electric Power Corporation, Midwest Energy Inc., Western Cooperative Electric Association of Kansas, sponsored the *Twenty-Second* Annual High Plains Electrorally this past Thursday, September 24, 2020

Beautiful West Frontier Park was home for the races again this year, as the City of Hays Parks Department and Public Works Department did a good job of maintaining and preparing the area, although we are going to have to revisit some areas of paving. The weather was sunny and cool in the morning giving way to a warm afternoon with almost no wind. It was still a great day for racing!

Special thanks goes out to the Fort Hays State University Physical Plant personnel who have continued their support of our race day for the past 22 years, and Mr. Randy Jordan's Power and Energy Class for their volunteer work.

Thanks again to the Ellis County Emergency Medical Services for supporting these races for each of the past 22 years!

We must again continue to thank all of our corporate sponsors of these races for their continued support year after year. Without them, there would be no High Plains Electrorally. Even in the face of this pandemic, they did not waiver in their support for Kansas Electrorally.

Special thanks goes out this year to Mr. Chris Dinkel and his Hays High team for always being there for us at this race. We can always count on them to lend a hand when it comes to setting up, tearing down, or just sweeping off the track.
